Read Me!

LightTable is an image cataloging tool that offers you a unique approach to visual storytelling. Images layout is done on a virtual canvas. You move items around just like prints on a table top. Images can be resized, repositioned, layered or aligned. Visual effects can be added allowing you to discover new perspectives created by the visual contrast created between images.

System Requirements
This software works best with OS X 10.10 (Yosemite)

Installation
1. Double-click the archive file you have downloaded, LightTable211.zip. Open a Finder window for the LightTable211 folder.

2. Read the LightTable License and LightTable Quick Start Guide.

3. Drag the LightTable icon to the Applications folder on your disk drive. Double-Click the icon to launch program.

Purchase and Registration
Until purchased and registered, the software will function as a time-limited demo. The expiration date can be found on the Registration Panel.

Once the software expires you will no longer have unlimited access to the software's full functional capabilities.   To purchase a license, visit our website at http://www.einsteinslegacy.com and click the "Store" link in the top right corner.

Finding More Information
While using this software , you may open the User Guide by choosing " LightTable Help" (Cmd-?) from the Help menu.
